

# Centre for Neutron Scattering, Uppsala University

## Seminar - Current and Planned Research with Neutrons

The Centre for Neutron Scattering will hold a seminar with presentations from three recently appointed staff members in chemistry and physics about their work with neutron scattering. This will be an opportunity for people to meet and discuss with colleagues and to learn about what can be done with neutron scattering. Refreshments will be available after the seminar so that participants can continue with informal discussions.

**Time/Date:** 15.15 to 17.00 on 23 January 2019.

**Place:** Ångström Laboratory, House 8,  
Ground Floor, Room 80127.

Coffee will be served from 15.00

All are welcome.

### Preliminary Programme of presentations

Speaker	Title
Kristina Edström	<i>Welcome and Introduction</i>
Yasmine Sassa	<i>Neutron Scattering Studies on Correlated Materials</i>
Will Brant	<i>Why neutron diffraction is vital for rechargeable battery development</i>
Gunnar Palsson	<i>Neutron reflectivity and simultaneous optical measurements of metal hydrides: present and future developments</i>

Adrian Rennie  
Centre for Neutron Scattering
